Tour Highlights

Geneva, Switzerland

As Switzerland's most international city, you will find a delightful blend of cultures. The Jet d'Eau is a must see – a 140m high water jet on lake Geneva. The old town is the heart of the city with its array of shops and cafés is a real draw for visitors. Geneva is also home to the International Red Cross from where they direct their humanitarian operations.

SkyWay Monte Bianco, Italy

At 3,500m, the engineering challenge of this incredible cable car is not to be overlooked. The 360° rotating cabins offer unrivalled views of the Aosta Valley. The SkyWay ascends to two stations – the Pavillon du Mont Fréty, where visitors can enjoy the high altitude botanical gardens or the more adventurous can continue the journey to Punta Helbronner and experience the delightful views of the 360° terrace.

Milan, Italy

Milan is Italy's financial powerhouse and the home to Italy's stock exchange which makes it more comparable to Paris or London than Rome. Occupied by successive powers over the centuries, it has been rebuilt on several occasions. Milan still has plenty to offer so be sure to visit the spectacular Duomo and the La Scala Opera House. Museums, galleries, cafes and restaurants abound and let us not overlook its position as fashion capital of the world.
